Hacking Cough

Hard coughs are bad enough, to be sure. But it's often the little, hacking, tickling, persistent cough that means the most, especially when there is a listory of weak lungs in the family. What should be done? Ask your doctor. He knows. Ask him about the formula on the label of every bottle of Ayer's Cherry Pectoral. Ask him if this medicine has his full approval for throat and lung troubles. Then do as he says.

DOCTORS AND DRUGGIST TREATED THEM IN VAIN

"The Cuticura Remedies are the best in the world, as I know from experience. In Dowlais, South Wales, about fitteen years ago, families were stricken wholesals by a disease known as the itch. Believe ma, it is the most terrible disease of its kind that I know of, as it itches all through your body and makes your life an inferno. Sicep is out of the question and you feel as if a million mosquitos were attacking you at the same time. Yet you could see nothing on the skin. But the lich was there all right and I sincerely trust that I shall never get it. I knew a drozen familier that were so affected. The male members and myself belonged to the same society and, as steward, it was my duty to visit the sick members once a week for sick benefit until they were declared off. That is how I became so familiar with the itch.

"The doctors did their best but their remaines were of no avail whatever. Then the families treat a druggist who was noted far and who for his remarkable curse. SUGAR STOCKS FIRM SPITE OF ELECTION

Democratic Landslide at This Time.

Per str. Mikabeln, for Mnui and Molokai ports, Nov. 5.-J. Marse, Y. Van Hing.

(By Federal Wireless Telegraph.)

SAN FRANCISCO, November 6.—
(Special to The Advertiser)—Hawaiian sugar stocks showed no ill effects from the Democratic landshide in this morning's session of the stock and hond exchange, and holders of these securities were greatly encouraged by their firmness.

There was no pressure to sell, and no transactions in any of the issues were recorded. Quotations were practically unchanged. Fluanciers in close touch with the Hawaiian sugar interests are confident that there will be no radical revision of the sugar tariff under the new administration. They declare that the fear that sugar stocks would weaken with the advent of a Democratic regime has been shown to be without foundation.
